Announcement
BRICS Youth Energy
Association Summit
Moscow, Russia
(October 4-6, 2018)

global.yeabrics.org

GENERAL OVERVIEW:

BRICS Youth Energy Association Summit (BRICS YEA Summit) is an international youth forum designed to provide a communication platform for BRICS youth energy cooperation. The concept of BRICS Youth Energy Association was adopted at the 1st BRICS Youth Summit in Kazan in 2015. Following the concept of the BRICS, the representatives of BRICS member countries were to establish the BRICS Youth Energy Association to develop a common view on the future agenda of the BRICS youth energy cooperation and to promote youth energy initiatives. The idea of the annual BRICS YEA Summit was adopted during the Youth Day of the International Forum "Russian Energy Week" in 2017.

The BRICS Youth Energy Association Summit is scheduled to take place on **October 4-6, 2018** in **Moscow, Russia**, and its aim is to promote international youth dialogue on energy issues, to form the BRICS youth energy community and to forecast of the BRICS energy development tendencies.

The BRICS YEA Summit will provide talented young students and specialists from BRICS member countries with a communication platform to exchange their knowledge, develop skills in energy sphere, discuss common projects to deepen the BRICS youth energy cooperation. The young delegates will have a chance to meet the leading experts and leaders in energy of BRICS at the Summit's workshops with the leading Russian universities, youth organisations and the recognized energy International Forum "Russian Energy Week".

VISION:

- Involving active and talented BRICS youth in developing the BRICS Youth Energy Cooperation Action Plan and common vision of the BRICS energy;
- Creating a networking platform for BRICS young people to exchange knowledge, information and experience, identify the challenges of the BRICS energy sector and solutions;
- Shaping a common BRICS youth energy agenda and identifying priorities in order to achieve long-term productive cooperation within BRICS YEA;
- Contributing to BRICS leadership in energy sector involving creative youth and supporting their initiatives.

GENERAL PARTNERS:

Ministry of Energy of the Russian Federation
Russian Energy Week International Forum
Moscow State Institute of International Relations under MFA of Russia
National Research University "Moscow Power Engineering Institute"
Young Guard of United Russia

THEME:

"Energy in the Digital Era"

The BRICS YEA Summit under the theme **"Energy in the Digital Era"** will highlight the strategic importance of BRICS Youth Energy Cooperation, development of digital economy in the energy sector, technology and innovations as key drivers of the BRICS energy development. In addition, the BRICS YEA Summit will include discussions on crosscutting issues such as improving energy efficiency of BRICS economies, BRICS energy sector in the context of the Concept of Sustainable Development, BRICS technological cooperation and others. Based on the results of the BRICS YEA Summit final documents will be drafted: the BRICS Youth Energy Forecast and the BRICS Youth Energy Cooperation Action Plan.
