## Objectives of the Cell

- To nurture and empower women to become agents of change in the society.
- To foster active participation and leadership of women at socio-economic and political levels.
- To organize training programmes to encourage self-reliance among women.
- To encourage participation of NGOs and government agencies in the activities of the cell.
- To create sensitization towards issues concerning women, particularly regarding gender discrimination and harassment.
- To become a resource centre for women and a forum for exchange of ideas and opinions through lectures, talks, seminars, workshops and other creative activities.

## Celebrating 60 Years of Academic Excellence

“the capability of a woman to multitask and strongly lead in every life situation remains largely untapped due to absence of a society where they are free to wander”

It is not a celebration of our Ultimate Creator, the Supreme Power, or God (if you will), but it is a celebration of someone who is manifested with similar virtues of infusing life into mankind, a Woman!

Not limiting this celebration to the International Women's Day, we need to continue to applaud their forward march, from strength to strength, and also demand, and create, a 'normal' space for everyone, which promotes round the clock mobility, and empowers them to roam, dream, and live freely!

For a game changing facilitation and further empowerment of Women, this world needs to ensure.....
